Dear Neighbors!

It is only as far a brand violation to display the ecb logo through a internet-proxy as it is by the satelite provider to receive the logo of a tv-station through a satelite. I created the graphic above that literally illustrates that. So what the rick are you trying to sue me for? For further info please take a look at the following URLs: <http://sch-einesystem.tumblr.com/post/119449555388/> <http://sch-einesystem.tumblr.com/post/119509843538/> <http://sch-einesystem.tumblr.com/post/119449555388/>

Yours sincerely,  
Max
